Abstrak

Expanding on the popular, practical how-to Web guide for public, academic, school, and special libraries, technology expert Smith has thoroughly updated the discussion to include new tools and trends, including browsers, access methods, hardware and software programs. She also supplies tips to secure project funding and provides strategic information for different library types, including K-12, public, academic, and corporate libraries. A proven winner, this thoroughly updated hands-on manual is a must-have for owners of the first edition. Librarians facing the challenge of creating a Web-based project will find easy-to-understand guidance to create an educational and interactive Web site--from start to finish.
